Fields

The image shows a screenshot of the Cochrane search interface. A dropdown menu is open, displaying a list of search fields. The first item, 'Title Abstract Keyword', is highlighted with a red circle. To the right of the dropdown, there is a search bar with a magnifying glass icon. Below the search bar, there are two buttons: 'Browse' and 'Advanced search'. Further down, there is a button labeled 'About Cochrane' with a right-pointing arrow. At the bottom right, there is a button with a bell icon and the text 'Set email alerts'. The dropdown menu itself contains the following items: 'Title Abstract Keyword' (with an upward arrow), 'Record Title', 'Abstract', 'Author', 'Keyword' (with a close 'x' icon), 'All Text', 'Publication Type', 'Source', 'DOI', 'Accession Number', 'Trial Registry Number', 'Cochrane Group', and 'Cochrane Topic'.

Definition

COVID-19 - A viral disorder generally characterized by high FEVER; COUGH; DYSPNEA; CHILLS; PERSISTENT TREMOR; MUSCLE PAIN; HEADACHE; SORE THROAT; a new loss of taste and/or smell (see AGEUSIA and ANOSMIA) and other symptoms of a VIRAL PNEUMONIA. In severe cases, a myriad of coagulopathies often correlating with COVID-19 severity is seen (e.g., BLOOD COAGULATION; THROMBOSIS; ACUTE RESPIRATORY DISTRESS SYNDROME; SEIZURES; HEART ATTACK; STROKE; multiple CEREBRAL INFARCTIONS; KIDNEY FAILURE; catastrophic ANTIPHOSPHOLIPID ANTIBODY SYNDROME and/or DISSEMINATED INTRAVASCULAR COAGULATION). In younger patients, rare inflammatory syndromes are sometimes associated with COVID-19 (e.g., atypical KAWASAKI SYNDROME; TOXIC SHOCK SYNDROME; pediatric multisystem inflammatory disease; and CYTOKINE STORM SYNDROME). A coronavirus SARS-CoV-2 in the genus BETACORONAVIRUS is the causative agent.

NEAR

Finds the terms when they are **within 6 words** of each other. Terms can appear in either order.

Example: cancer near lung (finds lung cancer as well as cancer of the lung)

NEAR/X

Finds the terms when they are **within X words** of each other where X = the maximum number of words between search terms. Terms can appear in either order.

Example: cancer near/3 lung (finds lung cancer, as well as, cancer of the lung)

NEXT

Finds the terms when they **appear next to each other**. Terms must appear in the **order specified**. Use the NEXT operator for phrase searching with wildcards.

Example: lung next cancer (finds lung cancer but not cancer of the lung)

Example: hearing NEXT aid (find hearing aid and hearing aids)*
